

The Tenino Police Department depends on our partnership with the Thurston County Sheriff, the Department of Corrections, and the Washington State Patrol, along with the citizens of the City of Tenino. Together, we can better address the public safety concerns within our community.

As the chief of police, I believe these community partnerships are the best way to combat problems that may arise in our future. We, your police department, depending on our community partners to address

issues that arise in a timely and professional manner.

As our department continues to evolve, we will work to foster our relationships with other community organizations such as Together, BTHAT, community watch groups, and local businesses.
