

Park Avenue to be Repaved in 2024

News Release Date

12-04-2023

Anyone who travels the west end of Park Avenue on a regular basis knows the need is great when it comes to repaving this frequently patched stretch of road.

Therefore, we are pleased to announce that the Washington State Transportation Improvement Board has selected the Tenino

Park Avenue Project for the summer of 2024. This will be an overlay of Park from 6th Street to Howard Street. Potholes will be repaired and then covered with an overlay of hot mixed asphalt. The award totals \$382,850 and will cover 95% of approved eligible costs.
